History

#1 - 08/31/2012 03:02 PM - Colin Turner

- Assignee set to Colin Turner

- Due date changed from 08/31/2012 to 09/07/2012

There is no tidy way of letting non-redmine users file a bug with an email address, apparently (anonymous users can be configured to submit, but this offers no SPAM protection, and no way of contacting them back).

The Apache config is in a better state, and a wiki page could be configured as a landing page with Apache redirect support to do so.
